Any materials ordered will be shipped at member rates until membership becomes effective.

Signature _____ Date _____

Application Approved _____

WHY WOULD I WANT TO JOIN GPCA? *We could give you lots of reasons WE THINK you should be a member, but perhaps you would like to see what membership means to your peers:*

In the past I have been asked about GPCA membership. The question is, why pay money or spend my personal time involved in an association? It's simple.

In the time I have belonged to GPCA, it has done more for me and my business than I could do for the Association in a lifetime. I am a one person operation so I depend on the GPCA for all my class time. I stay in tune with all the changes and concerns our industry is faced with on a daily basis. Most importantly, I receive information through constant contact with friends I have made through being involved in leadership roles in GPCA.

The friends I have in our industry are the best friends I have in the entire world. I know that I can call on them anytime day or night regardless of my needs. By the way, all those friendships were made through GPCA.

Many times we get caught thinking that GPCA is just about recertification hours. Without GPCA however, I would not know about the advances in technology, or have a voice at the State Capitol, and most of all I

would not have friends in our industry.

I accepted an invitation to get involved. Saying yes was the best decision I have ever made. As long as I am in the pest control industry, I know GPCA will continue to be there for me and my business and most of all they will listen when I have something to say. Of all the things I mentioned, I am most grateful for being treated like somebody, no matter who I am or who I work for, how large or how small my company is, or what my opinion is. Sometimes the smallest gesture leaves the greatest impression and GPCA, their staff, and members have definitely made a huge impression in my life.

Rex Corbin,
Rex's Pest Control
Ellijay, Georgia

Who's looking out for my business? When I decided to join GPCA, I quickly found out who that was. As I have become more involved in GPCA over the years I have realized what a critical role it plays in my everyday business.

Membership in GPCA is a fraternity of brother and sisters. Just like brothers and sisters we may compete in business daily but we all have a common goal. GPCA provides a format where we can unite in one voice for our common goals.

David King, CEO
Skyline Pest Solutions and Home Inspections
McDonough, Georgia

Having worked in most states I quickly became aware of the worth, to all size companies, a strong state association was for our industry. GPCA as a very strong association has made our voice heard with: Legislators, Regulators and the public, all this translating to a better business climate for our industry. Let's not forget all the training opportunities we have to maintain our certifications. Lastly, for me and my family we have made some outstanding friendships that would not be possible without my participation in GPCA. Thank you so much.

Tom Diederich, Retired
Orkin Pest Control

SO TO ANSWER THE AGE-OLD QUESTION—WHAT'S IN IT FOR ME?

- 1) Plenty of opportunities to earn CEU's throughout the entire state, some free some value—priced.
- 2) Current information via our website, BugBytes and magazine about what's happening in the industry.
- 3) Forms (service tickets, WDO graphs, forms, post cards, etc.) as well as regulatory books and educational materials.
- 4) People dedicated to advancing our industry in the state
- 5) Professional staff available to help you.
- 6) Friendships and networking

As our members have said above, you'll grow your business, and invest in your future by being a part of GPCA. Whether you are 'involved' in GPCA is up to you—but by being a member, you are making a formal commitment to improve your industry.

Connie Rogers, Executive Director
